

JP INTERNATIONAL SCHOOL
GREATER NOIDA
SESSION 2021-22

July 9th ,2021
Circular No:- JPIS/2021/29

Subject: Regarding Coding Classes

Dear Parent
Namaskar

Our motto is embracing the latest and adapting it to learners' advantage. Keeping it in mind, JP International School has recognized the need of Coding and Computational Thinking because ground stone for future education, subject competencies, career streaming, and life skills.

It gives us immense happiness to share that the complementary coding classes provided by the School as a pilot plan from May 2021, received an overwhelming reciprocal in terms of learners' satisfaction with the effectiveness and advantages of this specially tailored study plan.

Now, in order to cater to the increasing willingness, queries, and curiosity about the further continuation of coding classes based on the feedback shared by parents, JP International School has collaborated with *TYNKER*, an award-winning and world-class platform that is trusted by over 60 million students in 90 thousand-plus schools spread over 150 countries and endorsed by leading global brands like *Google, Apple, Facebook, Lego, Microsoft*, etc. The syllabus will be taught by an external team of industry professionals and a prestigious group of *TYNKER certified educators*.

The AI-based coding curriculum on the global platform has over **200 STEM lessons** that cover topics that provide exposure to new age learnings in the field of IoT, Big Data, AI, and Machine Learning. The course will span over 40 hours of instructor-led online classes and over 150 hours of guided projects and assessments. The classes will be conducted in the form of one class every week pattern online and each class will be of 1-hour duration. We have invited professional team of educators and industry veterans to ensure maximum benefits for the JPIS Students. The curriculum complies with 1st-8th grade US Common Core standards to ensure coding can be integrated into any application-based learning of core subjects like English, Social Studies, Math, Earth Science, Life Science, and Physical Science lessons. The teaching pedagogy will be primarily through activities, projects and also presents opportunities for students to earn multiple certifications of global recognition. It will further enhance skill sets pertaining to logical problem solving, writing skills & creativity, communication skills & storytelling.

These year-long skill-based certificate programs that comply with best educator reviews across the globe:

- ❖ will be conducted from **July 2021 to March 2022** post-school hours to run smoothly with the academic planner
- ❖ include multiple ranges of advanced courses with the progression of time and performance
- ❖ Kindly Note: The actual cost of the entire course on the standard price list amounts to around INR 35,000/- which includes *TYNKER's* annual license fee for access to dashboards on the platform available for each individual student and the cost of teaching for the annual curriculum by *TYNKER certified educators*. However, for learners' aide JP International School offers it at INR 3000/- (**ONE TIME PAYMENT ONLY**) for the willing candidates for the entire 2021-22 sessions starting from July 19th 2021.

We are organizing a session with you on 10th July 2021 to give you deeper perspective about the program and details of the session are here:

Grade I-V at 12pm

Grade VI-VIII- 1pm

Request you to kindly join on time.

With regards

Ms. Ruby Chandel
